Preparation of images to be entered in the exhibit

- a. A minimum frame size of 11" x 15", or a 12" x 18" metal print, is required.
- b. A standard braided hanging wire located about 5" below the top of the frame and extending the full width is required. Pictures cannot be hung on nails or hooks.
- c. Simple wood or metal frames are preferred but others are acceptable. Braided hanging wire must be firmly screwed into the frame to prevent slippage.
- d. Museum wraps are acceptable with a properly installed hanging wire.
- e. For unframed metal prints, a nearly full width rectangular hanging frame (AKA inset frame) on the back is acceptable in lieu of braided wire. Use of a float block is not recommended since they are designed to hang on a nail. Contact Bruce if you have a problem.
- f. Glass for framed prints is optional.
